In 2017 a cohort of makers came together in Wilkinsburg to realize a common goal, provide access to the space, tools, and education to anyone striving to improve their material surroundings. **5 years have passed since that moment and Protohaven now has over 200 members and has run dozens of classes for hundreds of students.** In December 2022 we invite you to celebrate with us as we usher in a new era of growth and impact. Your contribution to this event will support Protohaven in its effort to bring new opportunities to our community in the form of tangible and relevant skills for a modern world.
